

ADVERTISEMENT FOR BIDS

Sealed proposals will be received by the Division of Public Works, State of Idaho, at **502 N. 4th St., Boise, Idaho 83702** until **2:00PM**, prevailing local time, until **Wednesday, October 7th, 2015**, for **DPW Project No. 14193, Elevator Improvements, Science Building, Boise State University, Boise, Idaho.**

A description of the work of this project can be summarized to include modifications and replacement for the BSU Science Building's two existing side-by-side elevators. The existing elevators are too small and have limited weight capacity to safely and efficiently move large equipment from floor to floor. The left/west elevator currently services all four floors and the right/east elevator currently serves only the first three floors. The left/west elevator shall remain but be upgraded and modernized. The right/east elevator will be completely replaced, with a larger sized and ADA compliant cab, have an increased weight capacity, and will be extended to the fourth floor. This elevator currently serves as the building's primary freight elevator, but is limited since it does not serve the fourth floor. Extending the new larger right/east elevator to the fourth floor will require reconfiguration of the existing stairway exit access which will require a small 160 square foot building addition to the fourth floor area.

Proposals will be opened and publicly read at the above hour and date.

Plans, specifications, proposal forms and other information are on file for examination at the following locations:

State of Idaho, Division of Public Works, 502 N. 4th St., Boise, ID 83702 (208)332-1900
