Addendum Number Two

TO: Proposing Design Professionals

FROM: Martin Santoyo, Architect
Division of Public Works MS.

SUBJECT: DPW PROJECT NO. 16207 / Project Schedule
New Material Science Building, Boise State University
Boise, Idaho

1. The selected Design Professional will be required to provide construction cost estimating at the programming phase. Estimating at subsequent phases will be the responsibility of the Construction Manager.
2. The following areas of expertise are preferred:
 - 2.1. Design team experience with vented gas cabinets that may contain highly flammable and toxic gases such as silane, arsine and phosphine.
 - 2.1.1. This also includes the Gas Cylinder Storage room and the need for proper storage for incompatible materials and toxic and pyrophoric gases.
 - 2.2. Design team experience with radioactive materials (RAM) and the ventilation requirements associated with working with RAM in a chemical fume hood.
 - 2.3. Design team experience with perchloric acid hoods and the commissioning of this hood.
 - 2.4. Design team experience with hazardous waste bulking space and chemical storage (solvents, etc.)
 - 2.4.1. Space(s) must meet International Fire Code for hazardous materials limits and Building Code requirements for hazardous materials use and storage.
 - 2.5. Design team with experience designing to meet commissioning standard ASHRAE 110 for chemical fume hoods.
