

ADVERTISEMENT FOR BIDS

Sealed proposals will be received by the Division of Public Works, State of Idaho, at **875 Perimeter Drive, MS-2281, Moscow, Idaho 83843** until **3:00 pm** local time, on **Tuesday, March 29, 2016** for **DPW Project 16254 Emergency Generator, Life Science South, University of Idaho, Moscow, Idaho.**

A description of the work of this project can be summarized to include The scope of work includes the addition of a new natural gas generator system for Life Science South to provide generator backed power to the existing life safety loads and programmatic standby loads within the building. Life Science South is currently supplied with standby and emergency power from the existing Gibb Hall generator. This project will remove this shared generator connection, which will free up capacity and restore Gibb Hall to have a complete and independent standby and emergency power system. Within this project, an additional automatic transfer switch will be installed within Gibb Hall in order to provide code required separation of branches between the Gibb Hall emergency and standby power distribution systems. This will bring the existing Gibb Hall emergency and standby power distribution systems into compliance with current NEC code requirements. Replacement of the existing 350kW Gibb Hall generator will also be included as an alternate bid item

Proposals will be opened and publicly read at the above hour and date.

Plans, specifications, proposal forms and other information are on file for examination at the following locations:

State of Idaho Division of Public Works, 502 N. 4th St., Boise, ID 83702 (208) 332-1900
