Clarifications:

Questions regarding RFQ language-

- 1) Please define Design Professional as it pertains to all disciplines.
A 'Design Professional' is any design services firm offering architectural or engineering or lab design services specific to this project. Design Professionals that are Architects, Mechanical Engineers, Electrical Engineers and Civil Engineers will be required to be licensed in the State of Idaho. The Primary Design Professional will be required to be licensed in the State of Idaho.
- 2) Is it DPW's expectation that the individuals listed in the proposal response are the same individuals who will perform the work on the project?
The expectation is that the primary individual identified, for each firm, will participate in and/or have oversight over the firm's team performing the work.
